

Mission

LaserLeap Technologies aims to become an international reference in the transdermal administration of drugs with a differentiated product that allows safe, painless and reversible permeabilization of the skin.

VISION

LaserLeap - Your skin, our expertise

Values

Satisfaction: Customers and Other interested parts

Security: Of People and processes

Excellence: in the providing of the service

QUALITY POLICY

The implementation of a Quality Management System (QMS) allows LASERLEAP to ensure the optimization of its products and services: identifying, planning, executing and verifying the necessary processes to meet the requirements of its customers and other interested parts.

The Executive Board defines as guiding principles of our activity:

- Respond to the needs and expectations of customers and other stakeholders in order to ensure their satisfaction;
- Promote the development of employees' skills, so that they perform their functions according to high quality standards;
- Continuous development of new applications, aiming to achieve excellence;
- Be aware of market requirements, with regard to the identification of new business areas;
- Comply with legal and regulatory requirements applicable to products and services;
- Make a commitment to the continuous improvement of the effectiveness of the QMS;
